ON TOP OF THE WORLD

Located atop Sixty State Street, State Room is a unique private event venue located in the heart of downtown Boston. Offering panoramic views of the harbor and city, it is the only independently owned special event venue that can accommodate more than 800 guests in downtown Boston. It is widely recognized as the city's premier venue for social and corporate events, private dinners and celebrations.

The venue's centerpiece is the dramatic Great Room, featuring panoramic windows 20 feet high and 120 feet across. A rich mahogany floor creates a warm contrast to a gleaming chrome and glass "floating" staircase that leads to the mezzanine; ivory walls provide a clean slate to transform the room into a limitless number of unique visions. Designer Alina Apteker sought to emphasize State Room's grandeur and accent the venue with notes of her contemporary European sensibility. "The soaring walls of windows and spectacular views are unquestionably the focal point for State Room," says Apteker. "However, a closer look reveals unique and whimsical detailing including hand-crafted Israeli lighting structures, chic metallic space dividers and custom wall coverings."

The two adjoining Harborside Salons offer highly stylized design and architecture, while muted sophistication is the guiding principle behind the decor of the two Cityside Suites. The five rooms can be used together for a large gathering, or individually for more intimate affairs.

To complement their dramatic venue designs, the team at Longwood Events brings a passion for culinary arts and superb customer service to every event.

Rise above.
